

## Determine hat or cap size with the MGO Leisure Wear size chart

A hat or cap is only really comfortable if you have found the right size. Whether the hat or cap fits you comfortably depends on the model of the hat or cap. With the MGO size chart we will help you on your way.

*Tip: If your hat or cap is a little loose, roll a piece of tissue on the inside behind the brim.*

1. Take a textile centimeter and measure the circumference of your head as shown in the picture. *(This can also be done with a string that you measure with a ruler after determining the head circumference)*
2. Find the size that best fits your head size in the table

Head circumference	56 cm	57 cm	58 cm	59 cm	60 cm	61 cm
Hat or cap size	56 cm	57 cm	58 cm	59 cm	60 cm	61 cm
Confection size	S	M	M	L	L	XL
